PROJECT SUMMARY:    PROJECT # 9059

SG1A

SG1H

OPERATION:

SG1A

TASK:

(10 JUL 90) Describe

any associated activity to include  
descriptions of aircraft currently present.

REPLY:

Descriptions of the airfield, two associated  
aircraft and current activities were provided. A  
planned airdrop will not occur due to unknown  
problems.

ACTION:

No action possible. No information available to  
evaluate report.

EVAL:

Unable to correlate.

10 JUL 90.

## Summary of Information

Airfield is a HARD SURFACE RUNWAY WITH A CLUSTER OF 4-6 STRUCTURES ON ONE SIDE. WATER IS NEARBY. THIS AIRFIELD HAS BEEN USED IN DRUG A/D ACTIVITIES IN THE PAST (WITHIN PAST 24 HOURS) AND WILL BE USED AGAIN IN THE FUTURE.

THERE ARE CURRENTLY (10 1020C JUL 90) two aircraft at the airfield. One is a single engine, dark green propeller plane. The OTHER is a <sup>blue</sup> Twin engine propeller ~~plane~~ <sup>also almost above or above</sup> ~~the~~ <sup>tail</sup> ~~plane~~. It has high wings (almost ~~tail~~ <sup>tail</sup> fuselage) and one engine on each wing between midpoint and end of wing. BOTH AIRCRAFT ARE OLDER.

CURRENT ACTIVITY AT AIRFIELD: Someone is working on ~~the~~ one engine of the twin engine craft. The pilot is extremely on edge. An A/D which was scheduled to take place involving the twin engine craft will not take place within 24 hours. ~~Person~~ because of problems (not sure if problem is aircraft or ~~control~~ <sup>not</sup> received at the Airfield).
